

"My passion for bikes was handed down to me by my father who had been repairing motorbikes and bicycles in a small shop since the 1960s.

Over the years I have also transmitted this enthusiasm to my family who now helps me in the business.

You are welcome in the shop, it will be happy to give you the best advise on the type of bike and the routes in the area.

You will find us in Primiero, an enchanting valley in eastern Trentino at the foot of the Dolomites, an UNESCO heritage site.

Make your holiday an unique and unforgettable experience: choose the bike! "
